

Spotlight on our Space Exploring Evening 11/11

TOTAL RAISED - £156.70 for FOBS and a £50 donation to Chipping Norton Astronomers

A wonderful evening was had by all - we were super lucky for the cloud to have cleared and for us to be outside in time to view Elon Musk's Star link pass over our school! We then got to view Saturn in all its glory, the Moon up close, Mercury and several significant stars. It was truly spectacular!

Firstly, we would like to THANK Chipping Norton Astronomers for volunteering their time, sharing their expert knowledge and lending us their telescopes for the evening. They were wonderfully accommodating.

We would like to also THANK our amazing volunteers; Samantha, Amy, Katie, Dessie, Emma, Therese whom without them, the evening just would not have been possible. We are very grateful for all your help.

A special THANKS to Dessie & Mary for your super baking and Emma for your endless creative talents.

We also had some mini helpers for the evening who were very keen and super helpful, they will be sure to feature again with their mini helper aprons!

We would also like to THANK Co-Op Mid counties and Co-Op Shipston for their donations towards our refreshments - which allows us to reduce our expenses and maximise our fundraising efforts.

Finally, thank you to Mrs. Childs for supporting us and enabling us to put on this evening event at School.

We hope to see you at our next events!

Mary, Selina & Susan
